Hey,  
I haven't looked at these yet, but here is the information AECOM sent me over regarding the previous result letters.

**Subject:** RE: Previous Result Letters

Hi Dan. Here are set of Weston's letter templates. The first is for property access. There are several letter templates covering a variety of sample results scenarios. The word files only summarize the findings, but it looks like a PDF of the lab data sheet (see the one example PDF attached) was typically provided with the letters. I also like that they have an 'understanding the data' document to help people interpret the results. And there is a letter regarding water filtration. These seem like very good starting points.

Hey Laurie,

During our Site visit, the gentlemen who was on the site tour from Weston mentioned he had the result letters that were sent out in the past. Our OSC only had the draft letters. Could you please have those historical result letters sent over to us so we can see what has been sent out in the past?

Thanks!
